

# Welcome Home Ministries

## Our Mission:

*"To Enter Worlds of Brokenness in Order That All Might Experience Wholeness in Jesus Christ"*

*Recovery Residences 10 & 11  
Eight NEW Recovery Beds*

Our tenth and eleventh recovery residences were Christmas presents for eight men in December 2023. These two residences (photo above) have a total of four apartments with two bedrooms in each apartment (eight additional recovery beds) for graduates of our entry level congregate living recovery program. These wonderful gifts were made possible, because of the generosity of an "Angel Investor" who purchased the properties with the understanding that in September 2024, WHM will purchase these properties from the "Angel Investor."

There is no doubt that we will achieve this important goal through faith in God, that He will provide — as He has done for nearly 32 years of ministry at Welcome Home Ministries — through the faithful financial support of our many friends and supporters. When you give to Welcome Home Ministries, you provide the financial resources necessary to sustain our ministry for 85 residents in recovery at any given time... We anticipate serving approximately 250 men in eleven recovery residences in 2024.

Since 1992, approximately 3,000 souls have received recovery support services for substance use disorder at Welcome Home Ministries. Men, whose lives were shattered by the darkness and degradation of alcohol and drug addictions, have found hope, healing, and spiritual wholeness at Welcome Home Ministries.

Thank you for your continuing financial support! Please make your check payable to Welcome Home Ministries and mail it in the return envelope, today; or visit our website at [www.welcomehomeemin.org](http://www.welcomehomeemin.org) to make an on-line contribution to Welcome Home Ministries. THANK YOU!!!

### A Ministry of Hope, Healing & Wholeness

Many of our residents have experienced homelessness, and/or have been incarcerated as a result of criminal activities involving their substance abuse, or opioid use disorders. They often come to WHM with only the clothes on their backs and shoes on their feet, and have many hurdles to overcome during their journey in recovery. These hurdles often include physical, or mental health conditions, a criminal history, no driver's license, and low skills development... It is one thing to offer "supportive housing;" it is another thing altogether to provide Recovery Houses that are *"safe, healthy, family-like substance free living environments that support individuals in recovery from addiction."* (*Best Practices for Recovery Housing* — Substance Abuse and Mental Health Services Administration). Welcome Home Ministries provides an alcohol and drug recovery support ministry that encourages participants to reach long-term sobriety, self-sustainability, spiritual wholeness, and improved physical and mental health... Thank you for continuing your unwavering support!
